Relevant Experience

Website Migration & Redesign- *Contract* | Seattle, WA   June – August 2024

Migrated a client's website from Squarespace to WordPress for improved flexibility and user experience.

- Recreated 5 custom landing pages and transferred 25 blog posts, ensuring seamless design alignment and content integrity.
- Designed website content, optimizing pages and blog posts for readability and SEO.
- Implemented a responsive theme in line with the company's branding.

Associate Graphic Designer – Black Clover | Salt Lake City, UT   April – September 2022

Contributed to seasonal catalog design, managed the Amazon storefront page, uploaded image content to the company website, and designed marketing materials for tradeshows.

- Assisted with catalog design, promotional material, and Amazon storefront visual assets.
- Developed branding materials that enhanced customer engagement and brand consistency.
- Created high-quality graphics and marketing materials for digital and print distribution.

Projects

Vacation Planner Android App

Developed a mobile application to help users plan and organize vacations with integrated excursions and report generation using Room DB and MVVM architecture.

- Built using Android Studio, Java, and Room to manage vacation and excursion data.
- Implemented form validation and UI testing to ensure smooth data entry and error handling.
- Designed and executed test cases to verify core functionality, edge case handling, and performance.
- Used LiveData and ViewModel to support real-time UI updates and maintain architecture consistency

Spring Boot & Angular E-Commerce System

Created a full-stack vacation booking system to manage customer orders, checkout, and vacation packages.

- Implemented RESTful APIs to manage users, orders, and vacations.
- Designed and validated dynamic checkout forms to enforce correct input handling.
- Optimized MySQL database queries to ensure efficient data retrieval.
